# About race

## The history of the races

The history of the race dates back to 2006 when the first year of this race started in Slovakia. The idea of organizing cycling race came from the cycling enthusiast and **founder** of the cycling club ŠK Cyklo-Tour Sereď **Dušan Holbík**. Together with a few other friends they formed an organizational team and gradually began to speak with different partners and gain experience, which they tried to improve every year. The route and the profile of the race changed every year to better suit once the devotees of the hills and another time, the planes. Although the beginnings were difficult, they gained their supporters step by step.

## Present

As cycling progresses every year around the world and it is becoming an increasingly popular sport for all ages, we need to continue this trend with the Sereďmarathon, too. In recent years, the preparation of the race has become more detailed and begins almost the next day after the event. Every year, the organizational team constantly innovates technology, repairs, safety, and services for competitors. The race route remains the same with a length of 101 km and includes both plains and hills. The competitors pass through 2 regions, 5 districts, 21 villages, and 2 towns. The main organizer of the event is still the ŠK Cyklo-Tour Sereď cycling club with the support of the town Sereď and various Slovak and foreign partners. The whole track is provided by volunteers, bikers, state and municipal police. The race is included in the UCI calendar which also adds prestige to it. Apart from Slovaks, competitors from other countries such as the Czech Republic, Hungary, Austria, Germany, Belgium, Russia, England, Romania, and Slovenia also took part at the start.

In addition to the main race, there is also organized a children's race called Sereďmaratonik. The number of children in the race increases year after year and today their number closes to 100. Children can race in different categories and win interesting prizes, whether in a raffle or in various competitions.

Although the founder of these races Dušan left us forever (in 2018), he will remain in our hearts forever. We would like to continue this tradition.

## Basic information

Sereď – Námestie Slobody – CIEĽ	101	0	13:32	13:03	12:49	12:38

## Itinerary:

The route is still the same with the length 116 km and the superelevation 1250 m and consists of plains and hills. The racers ride through 2 regions, 5 districts, 23 communities and 2 cities.

## Refreshment:

We will prepare for racers refreshment in square in Sered' and also by the roadside in the buffet. There is a place with water, sweet snacks, iont drinks and fruits **in the square**. After achieving a finish line there will be waiting hot pastas with or without meat.

**The buffet** is behind highest hill Svrbice. Water in bottles, iont drinks, Coca Cola, energy gels, fruits, salt and other stuff will be prepared there.

## Bonus competitions

There is opportunity for racers to get bonus points at mountain and speed premiums that will be marked on the road follow: 1 km, 500 m, 100m. Only first three racers reach 3,2,1 points. The winner is the one with the most points. In case of having the same amount of points, the one who achieve the finish line first wins.

## Important cautions:

The evaluation is collective for male and female cyclists with or without license from all of the countries according to the place in finish.

The race is taking place during ordinary traffic. All the racers are obliged to follow instructions of organizers, referees and the police. The passage is secured for the peloton at every crossing and turnings. Racers follow yellow arrows on the road. HP and RP is marked (1 km, 500 m, 100 m). There is an accessible amount of accompanying cars so the organizer tags 1-6 cars and the main referee will determine their order. Each cyclist is responsible for himself and try to avoid dangerous situations. The organizer is not responsible for racers' injuries or damages created by racers. It really is forbidden to start the race without personal number and a helmet. There is specified area - behind HP Havran- which is marked on the map where all the rubbish may be thrown. Ignoring of this rule will lead to disqualification. Let us know any written protests and comments 15 minutes after announcement of results in "Kancelária". The collecting vehicle and the ambulance will drive behind the peloton. Among these cars there will be a car for rapid fixing of defects or similar troubles and also with refreshment.

The organizer reserves the right to change the process
